

Curriculum Statement

Our curriculum is designed to capture the interests and imaginations of all pupils by providing a breadth of opportunities and experiences, inspiring them to become motivated, lifelong learners.

At Wyke, every pupil receives rich experiences to enhance their curiosity through a carefully sequenced skills and knowledge progression, enabling them to make explicit links across their learning and experiences.

Through the cohesive curriculum provision, pupils are encouraged to challenge themselves and have high aspirations of themselves and their learning. We want pupils to thrive and make personal progress in a supportive environment where all achievements are celebrated.

The teaching and learning provide for the development of vocabulary, immersing the pupils in a language rich environment, allowing them to express themselves confidently.

Pupils leave Wyke having a deeper understanding of the impact that their learning will have on the next stage of their educational journey and their place in the wider world.
